Profile Summary

Backend Developer proficient in **Java, Spring Boot, and RESTful API architecture**, with hands-on full-stack integration experience using **React.js**. Demonstrated ability to deliver quantified performance improvements through backend optimization and query tuning across internship roles. Supported by strong fundamentals in **Data Structures, Algorithms, and Object-Oriented Programming**, with a track record of success in coding competitions.

Technical Skills

Backend	:	Java, Spring Boot, Spring JPA, REST APIs, Microservices Architecture
Databases	:	SQL Server, MySQL, MongoDB
Core Concepts	:	Data Structures, Algorithms, OOP, Database Design
Frontend	:	React.js, HTML, CSS, JavaScript
Tools & Cloud	:	Git, GitHub, Postman, Docker(Basic)

Work Experience

Full Stack Developer Intern — Dec 2025 – Jan 2026
Larsen & Toubro — *Remote / On-site*

- Engineered .NET REST APIs and optimized SQL database queries, reducing system latency by **25%**
- Integrated Angular components via ADO.NET and tuned transaction logic, boosting data throughput by **30%**
- Collaborated with senior engineers to refactor core EDRC enterprise backend workflows, decreasing average request processing time by **25%**

Frontend Developer Intern — Jun 2025 – Jul 2025
Agile Tribers — *Remote / On-site*

- Built **15+** reusable React.js components, accelerating feature delivery timelines by **20%**
- Converted Figma wireframes into responsive web interfaces with **100%** cross-browser compatibility
- Partnered in agile teams to streamline REST API consumption and state management across **4+** core views

Education

St Xavier's Catholic College of Engineering — Nagercoil
Bachelor of Engineering in Electronics and Communication Engineering (CGPA: 8.4) — *Jun 2023 – Present*

Projects

College Student Automation System — *Java, Spring Boot, React.js, SQL* — Live Demo

- Architected a full-stack web application to manage student records, attendance, and academic results
- Engineered **REST APIs** and optimized data workflows, improving application efficiency

EDRC Enterprise Module (L&T) — *.NET, ADO.NET, SQL Server, Angular* — Enterprise Project

- Developed backend modules with optimized SQL database interactions, reducing API response time by **20%**
- Tuned **SQL queries and transactions** to handle concurrent enterprise data processing efficiently

Achievements & Soft Skills

Achievements	:	First Prize in Intra-College Coding Contest (250+ participants)
Achievements	:	Second Prize in Scalable Website Development Competition
Coding	:	Solved 100+ problems on LeetCode; Built 6+ full-stack applications using Java and React.js
Soft Skills	:	Team Collaboration, Adaptability, Client Communication
